

The 'Teacher Pleaser' machine

Do you suffer from a grumpy teacher? If so, then use the 'Teacher-Pleaser' machine and soon your teacher will become the jolliest person in school. How does the machine work?

To start the machine running, you have to gently wind up the clockwork handle. This provides enough energy to turn the large wheel which causes the apple dispenser to work. As the wheel spins, this also heats up the kettle so that a fresh, warm cup of tea can be served. When your teacher receives a lovely cup of tea and an apple, she will instantly be in a good mood since all teachers love a cup of tea.

If the wheel begins to slow down, you must turn the handle again. As a result, the clockwork machinery will speed up the wheel and power one of the best features of the 'Teacher-Pleaser'. Firmly push the green button on the top of the machine and carefully insert a pile of unmarked books. The machine will use the green pen to mark every book. Therefore, marking is completed quickly so your teacher has more time to relax.

Furthermore, if you press the red button, a spinning brush will appear to swiftly sweep up and recycle any pieces of paper so that your class can be clean and tidy. Finally, there is an in-built calendar which alerts you to your teacher's birthday so that you can remember to buy a present.

Use one of these incredible machines because it will keep your teacher happy. The more you use it, the more your school life will be a breeze!
